

Learning Needs Screening Activity

Note: Adult Ed and SPOKES
Institutional Ed Skip Question 3 only

1. Look at Question #14 on the Learning Needs Screening Instrument. Why is this question important to you as a teacher?

2. Look at the other questions included in the Learning Needs Screening—identify something in this inventory for which you will need to refer a student for services (Institutional Ed Instructors consider what services are available for your students, i.e. hearing/vision, medical, psychological):

See *Handbook Section 5, Identifying Resources and Addressing Barriers*. One barrier that some students face is child care services.

3. Where can you refer a student for child-care services in your region?
